

**Louisville Metro Council
Neighborhood Development Fund
City Agency Request**

**By: Doug Hawkins
Councilman**

**July 26, 2006
Date**

Amount: \$1,200.00

For (include public purpose): To install Reflective Plowable Markers (RPM's) on Riva Ridge Road from project #37 of the FY06 CIF.

Location: Riva Ridge Road in Metro Council District 25

City Agency : Public Works

Contact Person: Dan Curtis, Traffic Operations Manager

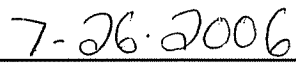

Agency Address: 601 W. Jefferson St., Louisville, KY 40202

Agency Phone: 574.3879

I have reviewed this request for an expenditure of city tax dollars, and have determined that the funds will be used for a public purpose.

Subject: Riva Ridge

Importance: High

As you requested, Traffic Operations has consider a centerline for Riva Ridge. As I explained, Riva Ridge is too narrow for the traditional solid double yellow line.

I have recommended the use of Reflective Pavement Markers, (RPM), which are also plowable. This means that if the road is plowed for snow removal, the RPM should not be damaged.

As I have also explain, there are certain roadways that PW is required to strip. Riva Ridge is not one of those roads. The required roads use the best part of our budget to complete. PW will however, piggy back work on the minor streets provided the CM is willing to fund the project.

Traffic Operations has estimated the costs of installing RPM on Riva Ridge at approximately \$1,200. This is a not to exceed amount and the CM will only be charged for the actual costs.

If this is acceptable to CM Hawkins, please provide a cost center for the charges and we will schedule the work.

Should you have any questions, please let me know.
